PROFILE:

Creative Software Engineer with 2+ years of experience in software development, seeking a full-time developer role.

SKILLS: HTML & CSS, MySQL, React, Python, JavaScript, Solidity

EXPERIENCE

Web Developer Intern, Olog Incorporated

Abuja Aug 2023 – Oct 2023

- Enhanced HTML and CSS skills during my internship at Olog Inc.
- Designed and styled user interfaces for various web development projects.
- Implemented dynamic functionality using JavaScript.

Back-end Developer, HNG Tech

Abuja Jun 2024 – Aug 2024

- Formed backend committees to assign tasks and manage features like Auth, Settings, and Payments.
 - Managed task assignments and reallocations to enhance productivity and accountability.
 - Completed at least one working feature per week, exceeding expectations for higher grading.
 - Set up and deployed a basic web server with an API endpoint.
-

PROJECTS

Smart Health Assistant

- Developed a web application for users to track health goals and receive personalized recommendations.
- Implemented features that enhance user well-being by providing insights and tailored advice.
- Utilized modern web technologies to deliver an intuitive and engaging user experience.

Interactive Basketball Coaching Assistant

- **Technologies Used:** Python, HTML, CSS
 - Developed an interactive web application using a large language model (LLM) to provide personalized coaching advice for basketball players.
 - Offered tailored training plans to enhance player skills and improve overall performance.
-
